Installation system

The VIP system is the new IP video entry system combining powerful performance with ease of installation. The ViP network, based on Ethernet cable connection, can serve an unlimited number of users in simultaneous conversations and with no distance restrictions. The ViP System can be used to create a dedicated, proprietary network or it can be integrated into an existing LAN, creating a video entry system that runs in parallel with other existing systems.

Main functions
available on the User Menu:

• Directories for
  - intercom calls
  - camera image display
  - operation of actuators to control lights, open gates, etc.
  - control status of doors subject to surveillance
• Answering Machine
• Call divert by time or when busy
• Language Selection
• Cleaning lock
• Button audible feedback volume adjustment
• Backlighting level adjustment
• Ringtone melody settings

THE MINI VIP W/HANDSET INTERNAL UNIT IS SUPPLIED
IN A "BASIC" VERSION THAT FULFILS ALL THE ESSENTIAL
FUNCTIONS REQUIRED OF A SIMPLE VIDEO ENTRY PHONE
SYSTEMS. WITH THE "ADDITIONAL BUTTONS KIT" 6735W,
THE MINI VIP W/ HANDSET CAN BE ENHANCED WITH ALL
THE FUNCTIONS OF THE HANDSFREE VERSION.

Mini ②WIRES

Simple lines.
Ultra-thin.
MINI: nothing more.
Nothing less.

The Mini series has a clean, essential design that nevertheless offers full range of functions. Both the hands-free version with full-duplex audio and the handset version feature a 4.3" 16/9 colour screen with 480x272 resolution. They both offer colour, contrast and ringtone volume control, in addition to melody customisation. They are equipped as standard with 4 soft-touch buttons for lock-release, self-ignition, switchboard call and privacy function management, and with door status indicator LED.
