

The WCCTV HD Site Tower

WCCTV is the UK's leading provider of rapid-deployment CCTV Towers, specifically designed to provide all-in-one site security for temporary sites such as construction, demolition and highways infrastructure projects.

WCCTV Site Towers provide a highly-visible deterrent, helping to prevent trespass and intrusions on to your sites before they occur, and as truly rapid-deployment security solutions they can be installed and fully operational in a matter of minutes.

The WCCTV HD Site Tower

The 7m tall, bright yellow Site Tower provides a highly-visible deterrent, helping to prevent trespass and intrusions onto sites before they occur.

As an all-in-one surveillance solution, it features wireless transmission (4G/3G) of video and alarms, a HD infrared, 360° PTZ camera to allow a remote operator to capture images of any potential intruders, audio speakers to enable a remote challenge to occur and local recording capability for the storage of evidential footage.

As a truly-rapid deployment CCTV system, the WCCTV HD Site Tower can be installed and fully-operational in just a matter of minutes - ensuring your sites are protected.

Its multiple motion detectors, audio speakers backed by high-end alarm monitoring and response effectively eliminate the need for costly manned-guarding, reducing security costs by up to 75% without compromising on quality or reliability.

Methods of Power

- **Mains** – 110/240v
- **Eco long-run 150hr battery** - allowing generator shutdown at nights/weekends
- **Methanol fuel cell** - autonomous power for up to 10 weeks
- **Renewable sources** (wind/solar)

Easy to Install

WCCTV Towers can be rapidly installed on site, and easily moved around a site to meet ever changing needs. There is no requirement for ground or civil works which prevents disruption to any ongoing site works.

Features & Benefits

- Rapid deployment CCTV Tower
- Proactive site protection and monitoring
- Up to 75% cheaper than manned-guarding
- Wireless detectors provide an invisible perimeter
- PTZ camera with IR capability
- Multiple powering options for optimum flexibility
- Battery back-up activated and alarm raised on power disconnection
- Audio functionality

Possible Applications

- Construction site security
- Temporary works security
- Utility site security
- Asset protection
- Major public events security
- Cable & metal theft prevention
- Project management and overview
- Health and safety review
- Time Lapse Video applications

Additional Benefits

In addition to providing site security, the WCCTV Tower can also be used as a project management and Health and Safety tool. It is possible for office based personnel to access the cameras during working hours and review the recorded images to solve on-site problems and/or check regulations are being followed by personnel and sub-contractors.

Utilising the additional video output channels on the HD Site Tower also allows for the addition of secondary HD cameras that can be used to produce stunning time lapse videos of your construction or demolition projects.

Secure Networks

WCCTV work in close partnership with mobile phone operators to provide their own bespoke privately secure networks. These relationships ensure continuity of supply, and also provide cell site upgrade and fault information.

Working closely with network operators also enables WCCTV to ensure its equipment is future-proofed.

Complete Managed Services

At WCCTV we do much more than just provide security equipment, we provide a full range of services to make our customer's lives as easy as possible.

Managed services we provide include:

- Site surveys, installation and maintenance
- Redeployments
- Alarm monitoring and response (BS8418 approved)
- Performance reporting
- Liaison with third party keyholders
- Mobile Wi-Fi hotspots

Specifications

Transit storage mode:

Length: 1200mm

Width: 980mm

Height: 2260mm

Operational mode:

Length: 1440mm

Width: 1570mm

Height: 6480mm
