

QR-PATROL

The No1 online **guard tour** management and monitoring system

-  Mobile + Web App
-  Real-time Events & SOS Alarm
-  Cloud system - Remote Management
-  Advanced Custom Reporting
-  GPS Position tracking

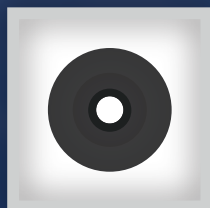

QR-Patrol changes the way you monitor your patrols **enhancing** security guards' efficiency and **protecting** them in real-time.

Add value to your security guard services by **increasing transparency** towards your clients.

3 Checkpoint Types

QR-Codes

NFC Tags

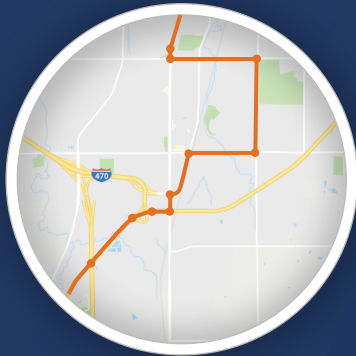

Beacons

Unique Benefits

Choose a Pro or Gold QR-Patrol Plan and get **ULTIMATE control** over your patrols

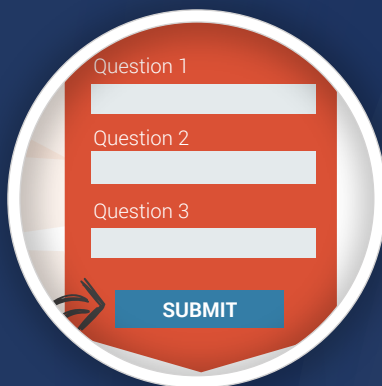

Guard Trail

Track the performed patrols path: The system will display detailed graphics on the map which indicate the path that a guard followed during the patrol.

Advanced Customized Reports

Choose from a new collection of advanced reports templates / dashboards or create your very own customized reports.

Mobile Forms

Mobile Forms can be used to send instructions to your employees, ask them questions, or even let them fill in any information they want to share with the monitoring center!

- + Man Down Alarm
