

The New Innovative PAS 68 Terra Planter is another Hostile Vehicle Mitigation WORLD first to protect against potential VBIED attack.

## PAS 68 Terra Planter

ZERO PENETRATION V Bollards 7500[N2]/64/90:0.0/0.0  
*Tested dimensions : HAG 1000mm, 230mm depth*

Introducing the next Innovation in Hostile Vehicle Mitigation Streetscape.

### APPLICATIONS:

- The Terra Planter is an aesthetically pleasing street furniture which is proven to physically mitigate hostile vehicles.
- Architecturally reduces the visual threat
- Decorative infill within a line of HVM Static Bollards
- Terra Planters can be installed as a single unit on the corner of a buildings.
- Can also be used as an infill between PAS 68 impact tested Terra products.
- Ideal for sites that require a single shallow depth PAS 68 unit to defend from hostile vehicle mitigation whilst allowing free pedestrian access.
- Granite or Stainless Steel finishes available
