

m-Post

Efficient Security Operations Start With The Right App

A mobile app to better guide & manage security personnel.

More Productive Officers & Improved Operational Efficiency

Security officers are the frontline, but without the proper technology, it's challenging for them to keep up with tasks ensuring the protection of people and assets. Our fully customizable mobile app, ensures officer accountability, improves operational efficiency and enables better communication between officers, operations and management.

Improve Efficiency & Accountability

From post orders, report templates to GPS & NFC technologies, officers are guided step-by-step through their assigned tasks and are enabled to complete their shifts efficiently.

Increase Productivity

Trackforce increases officer productivity by over 30% giving you the opportunity to grow your business, not your headcount.

Optimize Security in Real Time

KPIs in real time provide full visibility into the security situation to be able to reallocate resources where they are needed the most.

Incident & Activity Reports

GPS, NFC & QR Code Technologies

Lone Worker Protection

Time & Attendance Tracking

Visitor Management

Post Order Management

Geolocation & Officer Dispatch

GSOC (Global Security Operations Center)

Customizable Dashboard

Powerful, Essential Tools

m-Post comes fully functional right out of the box empowering security officers to stay on top of their duties.

INCIDENT & ACTIVITY REPORTS

Customizable incident and activity reports streamline communications and ensure consistency.

- Configure templates per site, incidents & include multimedia
- Alert stakeholders when reports are created, modified or completed
- Improve report quality & standardize processes

GSOC (GLOBAL SECURITY OPERATIONS CENTER)

Be constantly aware of your security situation & unify threat analysis across multiple sites with a GSOC.

- Monitor & control all sites from a command center
- Centralize incident reporting & alerts in one platform for all sites
- Standardize threat analysis & benchmarking

SMARTER GUARD TOURS & PATROLS

GPS, NFC & QR codes ensure officer accountability & help them to be more efficient.

- Validate tours in real time using NFC tags and QR codes
- View officer status, availability and proximity to incidents
- Geofences notify you when officers enter or exit a site

IT'S ALL ON THE DASHBOARD

Our live dashboard is fully customizable, giving all stakeholders access to the information they need.

- Real-time dashboard keeps everybody informed at all times
- Customizable to meet multiple site specifications & requirements
- One single view into staffing, operations and compliance

AUTOMATIC TIME & ATTENDANCE TRACKING

Get rid of traditional time clocks or paper timesheets and easily capture everything online.

- Get insights into workforce productivity
- Stay compliant with labor laws & simplify payroll processing
- Real-time alerts enable immediate response for coverage issues

GIVE ORDERS, MAKE CHANGES ON-THE-FLY

Post order management allows operations managers to distribute workforce instructions or make changes in real time.

- Ensure that correct procedures are always followed
- Increase accountability with officer document acknowledgement
- Add multimedia to your orders to clarify instructions

IMPROVED VISITOR MANAGEMENT

Streamline visitor check in & check out. Customize visitor profiles & get real-time access to visitor lists.

- Eliminate the paper logbook & capture data online
- Real-time access to current visitor lists
- Reduce threats and screen against unwanted visitors

GEOLOCATION & OFFICER DISPATCH

Track & locate officers at any time & dispatch based on proximity & availability for an alarm response or emergency.

- Get an aerial view of your entire security officer operation
- View status, proximity and estimated drive times to incidents
- Accurate NFC tags are easy to install and inexpensive

PROTECT YOUR SOLO OFFICERS

Ensure security officer safety with the GPS-enabled Lone Worker Protection feature.

- Solitary officers can request immediate assistance
- Officers can initiate their timer-based protection when needed
- Provide peace of mind for officers working alone
