Pure wireless connection architecture

Main Features

- 1080P (HD pixels)
- WiFi (Network)
- iOS & Android (Remote monitoring)
- Water proof (Camera shell)
- 500m (Wireless range)
- H.265 (Advanced Video Compression)
- Motion Detect (Motion detection)
- Night Vision (Infrared LEDs)

- 7-inch matte LCD receiver, supports 1024*600 display, Camera resolution 1920*1080P
- 4CH WiFi camera 1080P real-time recording NVR system.
- No wiring required, simple installation, automatic coding paired, plug and play, support maximum 20m night vision
- Support 4CH 400m Open range transmission distance, SD card slot max support 128G SD card.
- By playing back important evidence or interesting video records of 4CH. Let you know the actual of the whole event;
- Support iOS/Android smartphone APP and CMS remotely view and control.
- Support 4 channels 1920*1080P full hd camera /24 hours /7 days continuous loop recording
- 24 hours a day monitoring, day and night guardian.
- Support receiver to insert SD card to upgrade receiver and camera system firmware

SPECIFICATIONS

Item	Specification
Camera	
Image sensor	1/2.8" CMOS
Effective Pixel	1920*1080P(MAX)
Horizontal Viewing Angle	108°
IR Storage	(20m)4mm Lens
Interface	DC JACK: OS.5mm EJK5
Power supply	12V 1A
Ingress Protection	IP55
Receiver	
Display Size	7" TFT LCD
Interface	USB 2.0 DC JACK(03.5mm) SD card MicroUSB
Recording Media	SD 128G(MAX)
Power Supply	5V/3A
RF Characteristics	
RF Storage	2400-2520MHz
Wireless Transmission	400m(Outdoor)
General	
Operation temperature	-10°C-50°C
Storage temperature	-20°C-60°C
Operating Humidity	15-85%RH
