

## **Sprinter 120** > powered stair climber

A powered stair climber from Stanley ensures the safe, quick and efficient transportation of materials on stairs, uneven steps and kerbs. Weighing just 18.5kg with a carrying capacity of up to 120kg, the Sprinter 120 stair climber enables medium sized loads to be transported by a single operator.

With a wide range of accessories available, each stair climber trolley can be fully customised to accommodate products of all shapes and sizes.

The Sprinter 120 provides a convenient, robust, cost-efficient solution to industries such as high volume logistics services, online delivery, hospitality and retail to name but a few.

Features such as the lightweight design, electronic magnetic breaking system, easy stowage and removable fast-charging battery make the Sprinter 120 a market leading powered stair climber.
