brivo onair®

BRIVO PLATFORM

Get the Cloud-Based, On-Demand Advantage

Tens of thousands of customers rely on Brivo to secure their facility using our award winning cloud-based security platform, Brivo OnAir. With just an Internet connection, small business owners to facility professionals at large enterprises manage their security operation with Brivo OnAir. From access control and video surveillance to identification and credentialing, Brivo offers future-proof functionality at a fraction of the cost of on-premise solutions.

The new breed of security

- Remotely control and manage your site all from your smartphone
- Stay informed of critical events through real time notifications
- Monitor live video streams and review video clips linked to important events
- Get customized security reports to ensure compliance
- Eliminate the need for and maintenance of local servers and software
- Reduce business risk with secure and redundant data centers

As mobile as you and your users

Manage all your building security on the go using your smartphone with the Brivo OnAir application for Android and iOS. Additionally, eliminate any inconvenience and expense of issuing access cards or fobs with the highly rated Brivo Mobile Pass application, which lets your users open doors with their smartphone.
